Adderess:2/73, East Street, Kethanur, Palladam, Tirupur-641671

OBJECTIVE

Full Stack Developer with practical experience in creating responsive websites using HTML, CSS, JavaScript, React.js, Node.js, and MongoDB. Skilled in both frontend and backend development, writing clean and efficient code. Always eager to learn new technologies and contribute to creative and fast-growing projects. Passionate about solving real-world problems through innovative web solutions.

PROJECTS

Super Bank – MERN Stack:

Built a secure full-stack banking application using MERN with real-time transactions and user account management.

Library Management System: (MERN Stack)

Developed a system to manage books, users, issue/return records, and fines with streamlined automated workflows.

RVS Complaint Management System: (React native)

Developed a centralized digital platform for managing college-related complaints, enabling students to register issues online with real-time status tracking, and providing admins with dashboards to review, assign, update, and resolve complaints efficiently.
